We are pleased to announce a series of improvements aimed at enhancing usability, clarity, and reliability across the platform. Details of the resolved issues are outlined below.

# 1. Enhancements

## 1.1 Application Responsiveness

Improved the layout, navigation, and scrolling across Risk and Issue lists, dashboards, action plans, tables, and pop-ups, making the platform easier to use on different screen sizes.

### Why This Matters:

This ensures that content remains accessible and easy to use across desktop, laptop, tablet, and mobile devices.

### How to Navigate:

- Log in to RAP.
- Use RAP on different devices, such as a desktop, laptop, tablet, or mobile device.
- Navigate through the Dashboard, Risk/Issue List, and Action Plan List.

## 1.2 RAP User Guide Update

Updated the RAP User Guide to reflect recent application features, interface changes, and functionality.

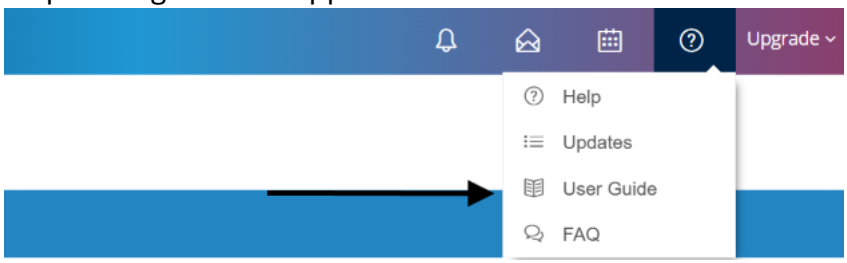

### Why This Matters:

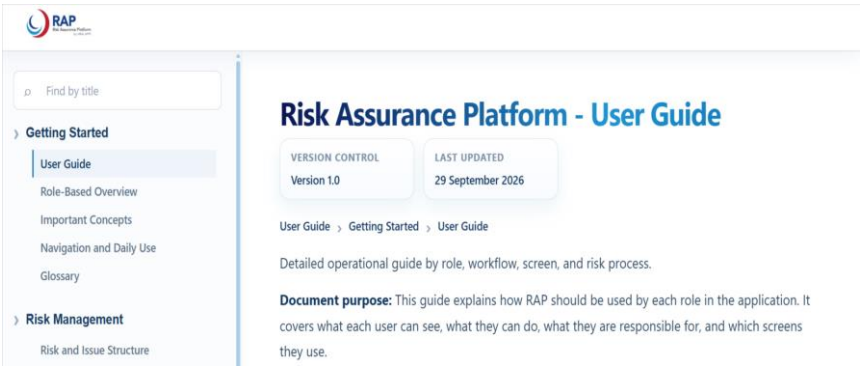

This ensures users have access to accurate and up-to-date instructions when using RAP.

### How to Navigate:

- Log in to RAP.
- Select the **Help (?) icon** in the header.
- Select the **User Guide** option from the menu.
- Review the updated guide and application information

# 2. Improvements

## 2.1 Risk/Issue PDF Score Mapping Fix

Fixed the issue where score mappings in the Risk/Issue PDF export did not match the values displayed in the application.

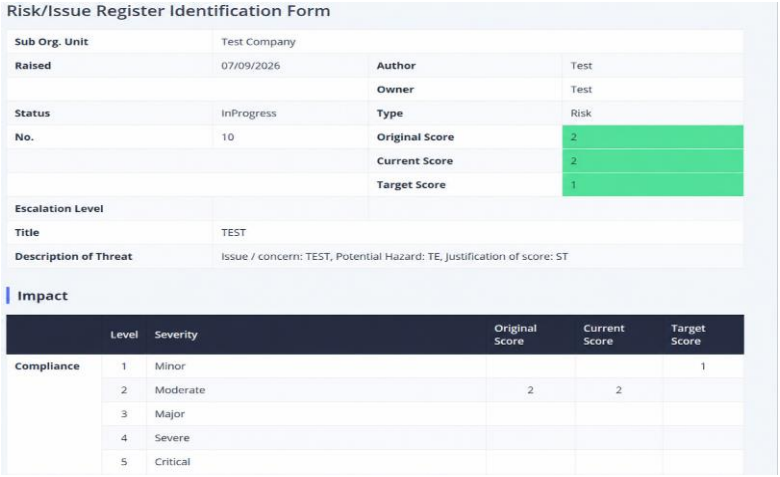

### Why This Matters:

This ensures that exported Risk/Issue PDFs display accurate and consistent scoring information.

### How to Navigate:

- Log in to RAP.
- Open an existing Risk or Issue.
- On the **Raise Risk/Issue** form, click the **Export PDF** button.
- Open the exported PDF and confirm that the scores match those displayed in the form
